

Outdoor Events on the Mudchute Park & Farm Fields

Over the course of the summer there will be a number of events taking place here at the farm, most of these will have music or public address systems of some description.

As with past events during the time that the events are running there will be some sound heard from the vicinity.

All of the events held at Mudchute Park and Farm are facilitated by a third party who ensures that they are fully licensed by London Borough of Tower Hamlets and as such the appropriate paperwork submitted regarding decibel ratings, sound pinch points, distance to residential houses etc. and is fully compliant prior to the licence being granted. This means that any event that is held on the park and farm has met all the local authority requirements for an events licence to be issued, this includes Event notices being placed within the local area informing residents of the event details.

Why do we hold events here?

We hold events here at the farm to generate income to support the running of the Park and Farm. In a funding climate where it is getting harder and harder to access monies to enable us to deliver our charitable aims we need to diversify and these events generate income that we just could not do without. Events of this size are not new to the farm with gatherings of this nature being held on the same site for many, many years. There was a period of time during Covid when these events did not happen, the effects of the pandemic have led to many people across the country working in a new hybrid way (from home and from the office). So it may seem like a new thing that we are running at the farm but it is not.

The events do not impact on the animals here in a negative way and our dedicated team of staff monitor them throughout all of the events that take place.

In short the income generated from these events mean that we can carry on doing what we do for not only the local visitors but for all of the people that visit us from across London and beyond and if they were to stop then we would be unsure of our survival as they now bring in a large part of our income.

We hope that this has given you more of an insight as to the reasons why we hold events here at the farm.

Thank you for your continued support and understanding.

Mudchute Park and Farm Team
